

5G Network intelligence - Operations Overview

Total Network Records
498.75K

Critical Risk Cells
8.475K

High Risk Cells
2.171K

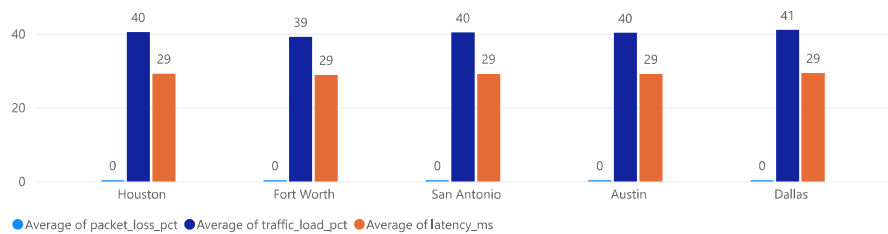

Failure Events
1.003K

Network Anomalies
998.00

Average Failure Risk %
2.49

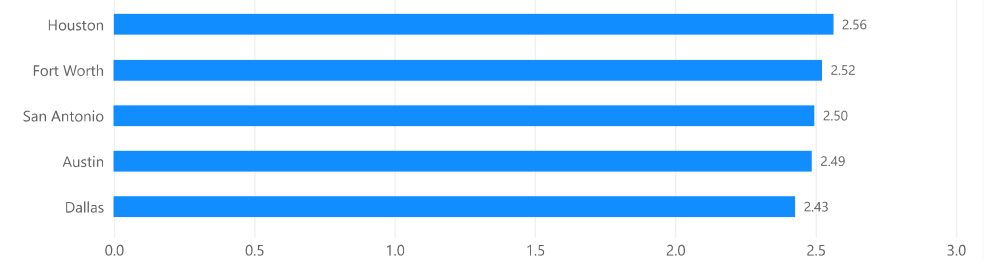

Network KPI Performance

Average of packet_loss_pct, Average of traffic_load_pct and Average of latency_ms by region

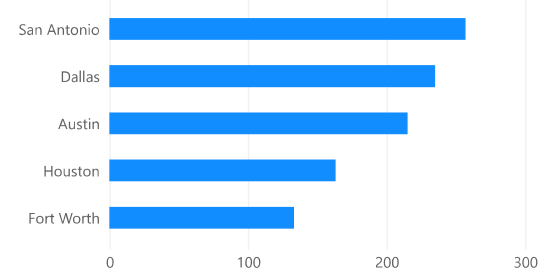

Average of failure_risk_pct by region

by region

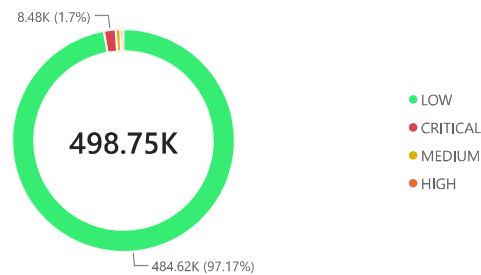

Failure Events by region

Count of cell_id by region

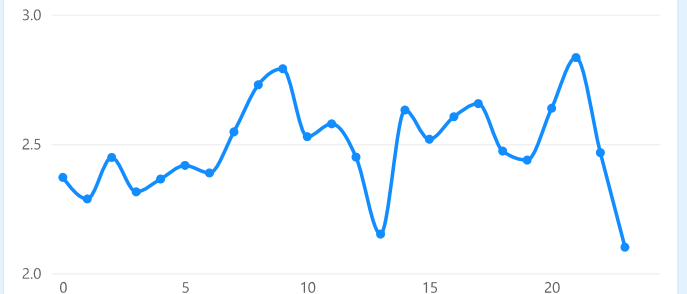

Risk Distribution

Count of cell_id by risk_level

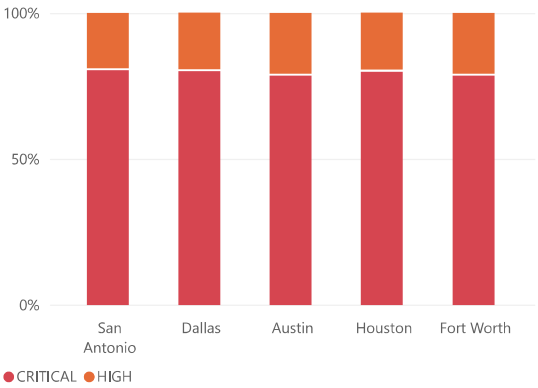

Failure Risk by Hour of Day

Average of failure_risk_pct by hour_of_day

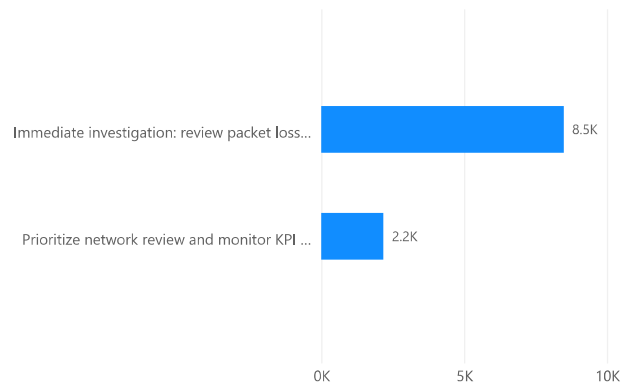

Failure & Risk Intelligence

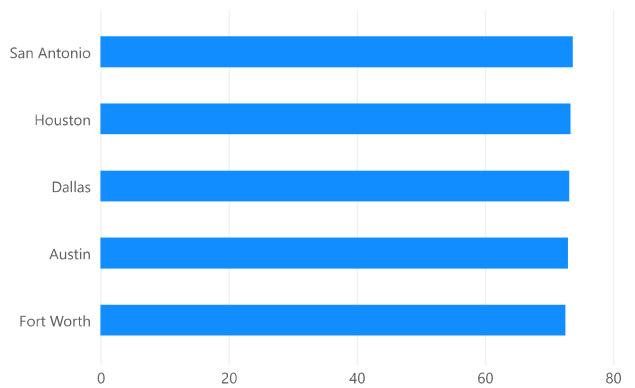

Risk Distribution by Region
Count of cell_id by region and risk_level

Recommended action for high risk network cell
Count of cell_id by recommended_action

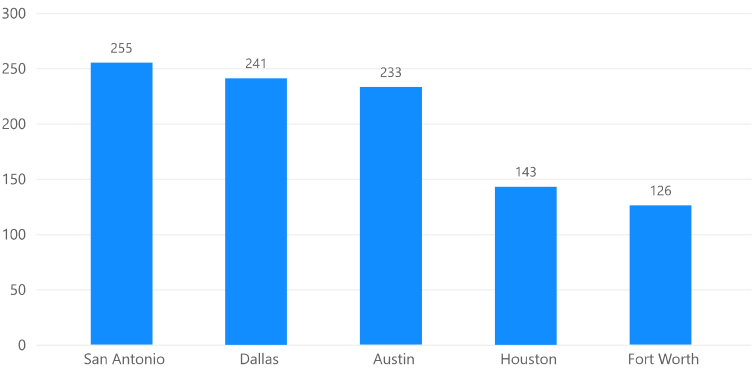

Average Anomaly
Average of anomaly_score by region

Critical Network cells - Recommended actions

cell_id	region	Sum of failure_risk_pct	risk_level	priority_code	recommended_action
CELL_0001	San Antonio	4,567.20	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0002	Austin	2,621.46	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0003	Fort Worth	2,991.92	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0004	San Antonio	3,429.45	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0005	Dallas	3,024.57	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0006	Fort Worth	2,761.44	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0007	Fort Worth	99.73	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0007	San Antonio	3,454.31	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0008	San Antonio	2,424.27	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
CELL_0009	Dallas	3,267.94	CRITICAL	1	Immediate investigation: review packet loss, latency, signal quality
Total		951,552.33			

Network Anomalies by region
Count of cell_id by region

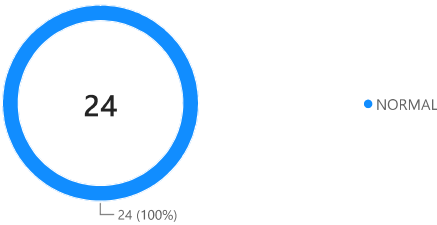

Forecast & Operations

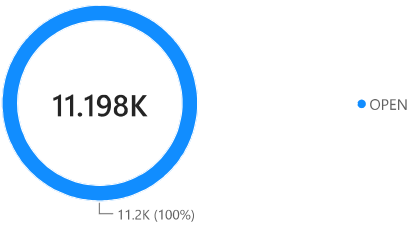

Peak forecast network LOAD KPI

Peak Predicted Traffic %
59.79

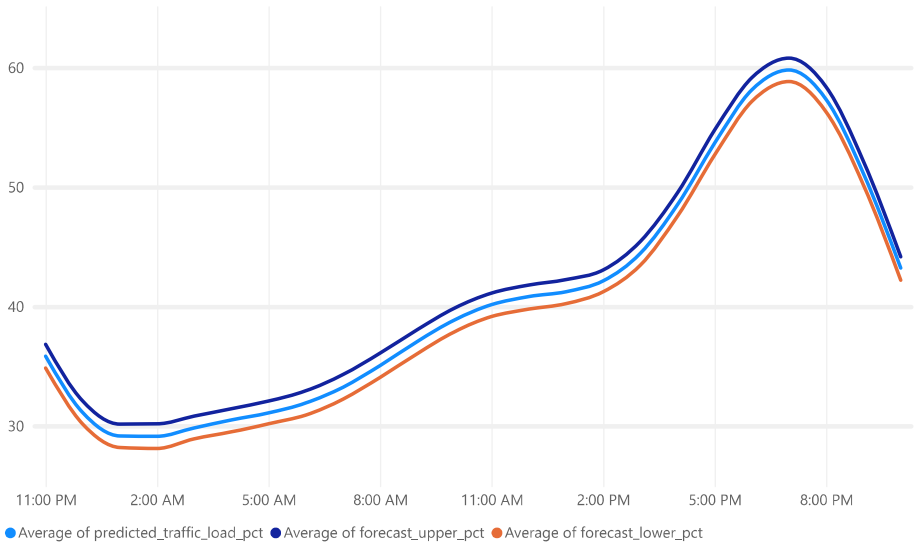

Forecast Capacity Risk
Count of forecast_timestamp by capacity_risk

Network Alert Status
Count of cell_id by alert_status

Traffic forecast with confidence bounds
Average of predicted_traffic_load_pct, Average of forecast_upper_pct and Average of forecast_lower_pct by forecast_time...

Average of predicted_traffic_load_pct
by forecast_timestamp
